## ABOUT ME

I am 30 years old. I like long walks on the beach, sipping sweet Chardonnay by the fire I don't have, and reminiscing about the good old days before I had wrinkles 😊

## ARTISTIC INTERESTS

### Dancing

There is nothing more freeing than cranking the volume up and physically and mentally letting loose. Letting your mind absorb the mathematical variances of sound and energy, while you move to the rhythm; there is no equivalent.

### Singing

I was singing along to Michael Jackson songs by the time I was five, and have been singing ever since! I was in choir through high school, I sing karaoke occasionally, and my favorite place to sing is in the car during my commute.

### Poetry

Reading poetry and writing poetry has always been fascinating for me. There is no better way to manipulate words to convey emotions and ideas than within a poetic form. My favorite poem is [\*Diving into the Wreck\* by Adrienne Rich](#).

## MY POETRY

### W A T E R F A L L

*The raging, cascading, clear, crisp, waterfall  
smells murky—looks brilliant—tastes like a dream.*

*This is me.*

## Beadwork

These are a couple of tree ornaments that

I have made for my loved ones.

This is one of my favorite items to  
construct with beads.

## ARTWORK

This is a postcard that I painted for my loved ones in class this quarter.  
It represents both of my families at the same time.

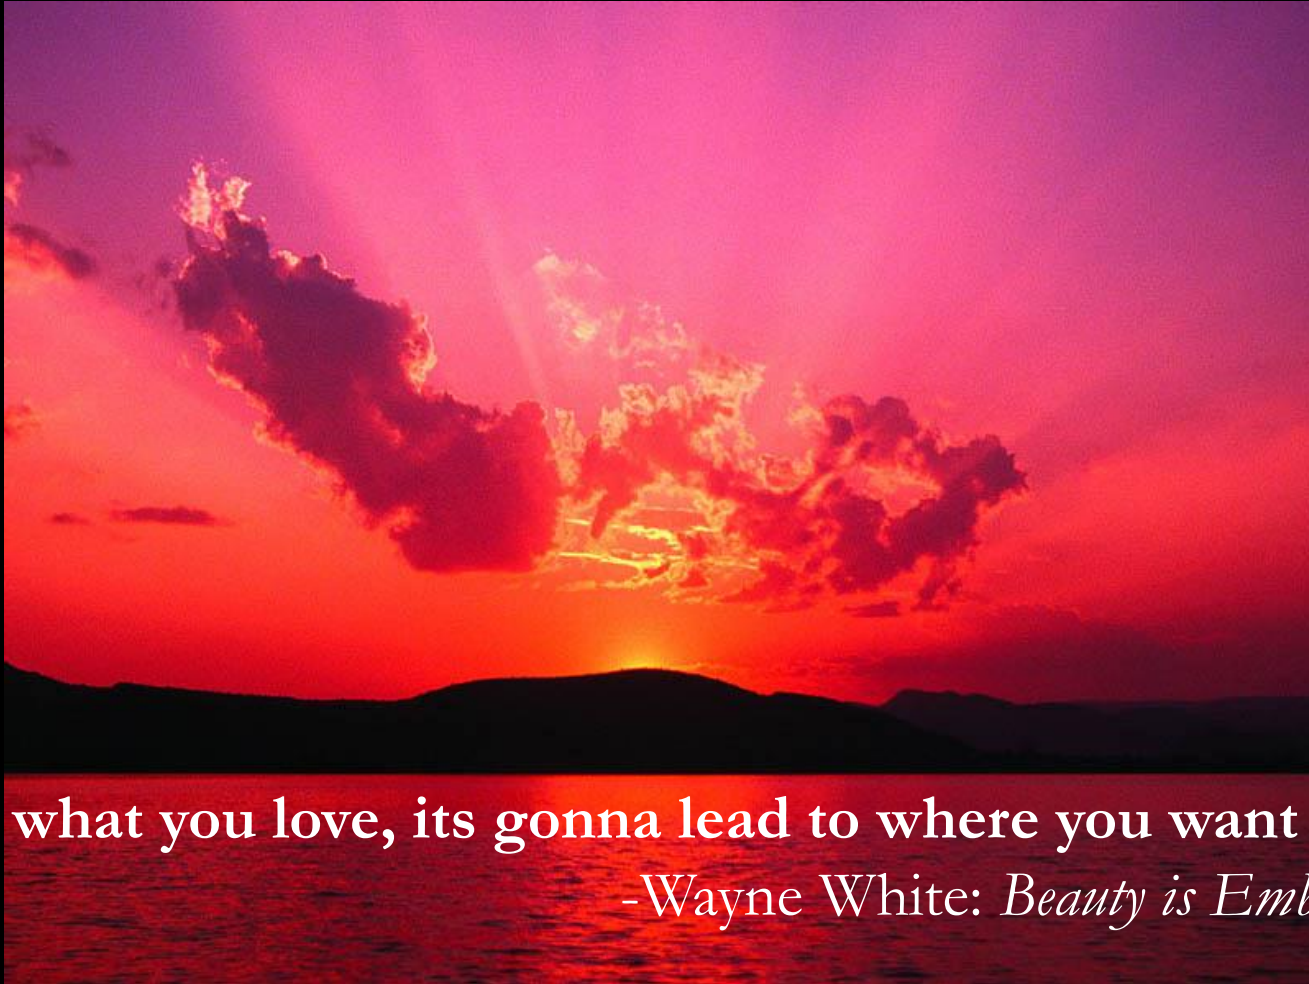

## ARTWORK

This is an unfinished bowl that I am constructing for class this quarter. Next, three or four colors of glaze will be slathered around the outside, following the textured pattern. The inside will be glazed with the color I will choose for the bottom-most section around the outside.

This is going to look AWESOME!!
